```
 1    1  #include <algori
 2    2  #include <vector
 3
       3  #include<iostrea
 4    4  using namespace
 5    5
 6    6  bool cmp(pair<int
 7          return a.fir
       7      return a.fir
 8    8  }
 9    9
10   10  vector<int> solu
11   11      vector<pair<
12   12
13
14
15
```

Test Output ✓

```
Your test case: [0, 1, 0]
Returned value: [1, 0, 2]

Your test case: [1, 1, 1, 1]
Returned value: [0, 1, 2, 3]

Your test case: [-99999999, 99999999, 0]
Returned value: [1, 2, 0]

Your test case: [1, 2, 3, 4, 5, 6, 7]
Returned value: [6, 5, 4, 3, 2, 1, 0]
```

Your code is syntactically correct and works properl
